## DETAILED ACTION

### EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Attorney Robert L. Grabarek, Jr. (Reg# 40,625) on March 2, 2010 and the follow-up email communication of March 11, 2010.

The application has been amended by replacing claim 1 with the following:

--1. (Currently Amended) A key for a keyboard-based musical instrument characterized by comprising:

a key body; and

a key touch member disposed on the top of said key body, made of a first synthetic resin having a large number of hydrophilic polymer particles added thereto in a dispersed manner, and for touching the key;

wherein the hydrophilic polymer ~~has~~ particles have a hydrophilic group in a main chain or a side chain thereof, and ~~is~~ are substantially uniformly dispersed in a base within said key touch member and unevenly distributed in an area near a surface of said key touch member, wherein said substantially uniform dispersal in the base is different from said uneven distribution in said area near said surface of said key touch member.--

### Allowable Subject Matter

2. Claims 1-4 are allowed.

***Reasons for Allowance***

3. The following is an examiner's statement of reasons for allowance:

The primary reason for the allowance of claims 1-4 is the inclusion of the limitations of: a key touch member disposed on the top of said key body, made of a first synthetic resin having a large number of hydrophilic polymer particles added thereto in a dispersed manner, and for touching the key; wherein the hydrophilic polymer particles have a hydrophilic group in a main chain or a side chain thereof, and are substantially uniformly dispersed in a base within said key touch member and unevenly distributed in an area near a surface of said key touch member, wherein said substantially uniform dispersal in the base is different from said uneven distribution in said area near said surface of said key touch member. It is these limitations found in each of the claims, as they are claimed in the combination that have not been found, taught or suggested by the prior art of record, which make these claims allowable over the prior art.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

***Contact Information***
